

Technical parameter

Model	IN-H6
Display screen	8-inch high resolution color LCD touch screen
Height measurement	Ultrasonic probe
Height measurement range	Parallel beam type weighing sensor
Height measurement range	50-195cm
Weight measurement range	1-300KG
Height accuracy	0.5cm
Weight accuracy	0.1kg
Wire display distance	Adopt 2.4G wireless transmission ,wireless display can reach within a radius of 100 meters (under open area without interference)
Measurement speed	Average 10 seconds/time
